

BIG CROWD FOR PARADE

Streets Crowded to Witness Big Parade That Opens Third Liberty Loan Drive

Saturday afternoon having been declared a half holiday owing to the beginning of the big drive for the Third Liberty Loan the streets of the city were crowded with people anxious to see the big parade and to hear Mr. John G. Winn, of this city, and Mr. William Rogers Clay, of Frankfort, explain the details why, how and when to purchase Liberty Loan Bonds and these gentlemen did so in a most convincing manner. It was without doubt the biggest parade of any kind ever seen in this city and the people who planned it and those who took part in it especially the children deserve a great deal of credit. We urge our people to save every way possible and to buy Liberty Loan Bonds. Isn't it better to loan your money to Uncle Sam and to help win the war than to be forced to give up everything to the German monster if we lose?

Be loyal and do all you can.

END COMES SUDDENLY

Mrs. Campbell Gibson Stricken With Acute Indigestion Dies in Short Time

Mrs. Campbell Gibson, who has been practically an invalid for several years and who has been at a Lexington hospital for several months, was stricken with acute indigestion early Sunday morning and owing to her weakened condition she died within a short time. Mrs. Gibson was a member of the Methodist church and had been a consecrated Christian since early childhood. Deceased is survived by her husband, one son, James, a soldier stationed at Ogelthorpe, Ga., two daughters, Mrs. S. E. Spratt, of this city, and Mrs. James Robb, of Fayette county. Funeral services were conducted Monday afternoon at 3 o'clock at the Robb residence by Rev. E. L. Southgate, of this city, with burial in the Lexington Cemetery.

The Advocate tenders sympathy to the bereaved family in their hour of sorrow.

ARE MARRIED IN LONDON

Brave Kentucky Girl Crosses Hun-Infested Ocean to Marry Man of Her Choice

Mr. and Mrs. J. C. Wiseman, of Danville, Ky., have announced the marriage of their daughter, Miss Adeline Elizabeth, to Mr. Lloyd L. Frazer, of this city, but who is at present stationed at London, England. The ceremony was performed Sunday afternoon, March 30th, at the residence of Mr. Theodore Stevens, a cousin of the bride, according to a cable received from the happy couple. The courtship started a number of years ago when Mr. Frazer was attending Centre College at Danville, and although later he attended Cornell, he still kept in close touch with his Kentucky sweetheart. After graduating from Cornell he accepted a position with the Standard Oil Company at Johannesburg, South Africa, but resigned his position to take a position with the English Government and when the United States entered the war he asked to be relieved from his duties in order to join the colors of his country but was persuaded to stay with the British government and now has a very responsible position as the purchaser of steel to be used in the construction of parts of aeroplanes. His position requires great technical knowledge but Mr. Frazer has always measured up to the high standard required. As his work will no doubt keep him from the States for a number of years the young people finally decided that as he could not come to her she would go to him and with the calm, determination to face danger and possibly death in the attempt to join her lover this brave Kentucky girl bid farewell to parents and home and through the providence of an all-wise God she was permitted to make the journey in safety and we are sure that every one that reads of the brave deed of this girl will send a prayer to heaven that she and her husband will live through the terrors of war and will return to those they love in old Kentucky.

The bride is a beautiful, refined girl with those attributes of character that have made her a favorite with all her acquaintances. The groom is a son of Mr. and Mrs. John S. Frazer, of this city. The writer has known him since he was a little boy and a more manly, honorable gentleman he has never known. The Advocate is proud of the opportunity to congratulate the happy couple and we feel sure that they have the best wishes of everyone.

WE WILL HAVE FINE HOSPITAL

Beautiful Old Bigstaff Residence Property is Purchased by Public Spirited Citizens

The Bigstaff home has been bought and paid for. On the morning of the sale Mr. Richard A. Chiles offered \$2,500.00 if the balance could be raised. By noon thirty (out of thirty-three asked) had contributed \$100 each. The property was bought. It required \$900 additional to pay for it. Eleven other men were asked. Nine responded. So that, upon the day of the sale, the money was all pledged. Since then five others have joined the \$100.00 club. Mt. Sterling and Montgomery county can be proud of their citizens. Those approached were approached as they were met in town. No systematic canvass was made. Many in the \$100 club will be asked for more. When all have had an opportunity to contribute the name of the donors will be published.

The hospital will be named for the beloved mother of Mr. Chiles, who made the contribution as a memorial to her.

In order that the work may be done practically, sensibly and effectively, the absolute control of the property, for a term of three years, is vested in Messrs. R. G. Kern, J. O. Greene, M. A. Prewitt, B. Frank Perry, Charles D. Grubbs, W. L. Killpatrick, C. C. Chenault and Pierce Winn. At the end of three years these men are to devise the plan for future control.

Immediate steps will be taken to equip the building with an operating room, free ward, and everything necessary to an up-to-date hospital plant. The cost will be several thousand dollars. When the amount is ascertained, the public will be asked to give it; and the generous people of our county are certain to do it. The request for the purchase money was met by a sympathetic readiness, warmth, and quick generosity, such as to strengthen faith in mankind, and in the breadth of human charity.

The rooms need to be furnished and supplied with linens. Mrs. Robert C. Gatewood will equip a room in memory of her mother. What individual, church, church society, or fraternal order with furnish others, is not yet known; but they, too, are certain to do so. If you have such a charitable impulse in memory of your beloved dead, or for the love and pity of the suffering living, act now. Make your purpose known now, so that those in charge may know.

The hospital will be open to every reputable physician, absolutely alike, and just, and absolutely without favoritism to any one of them. This statement is made because a number of inquiries have been made along this line. The physicians of the county will be asked to make substantial money contributions toward the equipment named.

If you want information, or desire to join the \$100 club, to give more, or less, to equip a room, supply a ward, or erect a building or an addition, call on Robert H. Winn or any of the above named trustees.

SPECIAL CALL FOR SOLDIERS

Two Men Wanted For Special Mechanical Training Answered By Volunteers

The local board on Monday received a notice to send two men to Indianapolis, Ind., April 15th, to receive two months' special training at the expense of the Government to be fitted to serve in army positions requiring knowledge of automobile driving, repairing, blacksmithing, carpentry, gunsmithing, sheetmetal work and other mechanical duties extending to many kinds of military service at the front and behind the lines. When it became known that this call had been made Messrs. Robert Stone and Clarence William immediately volunteered and requested the local board to send them and the board complied with their request and the men will be sent next Monday to report to the officer in charge at the Metropole Hotel, Indianapolis. Information has also been received that Montgomery county will be required to furnish 15 men to go to Camp Taylor between April 26 and May 1st. This is the first increment of the second draft from this county. The exact date of the entrainment nor the names of the men to go have not yet been selected, but due notice will be given later.

MISS FROST LEAVES

Miss Margaret Frost, the popular community nurse of this city, who enlisted in the Dr. Barrow Unit several months ago, was called for duty last Friday and left here Saturday night in company with eight other nurses for Camp Dix, near Trenton, N. J. During her brief stay in our community Miss Frost has endeared herself to the people of this county who with reluctance give her up. Her work has been most satisfactory and as a token of the esteem in which she was held by local admirers a purse of \$100 was raised and presented to her. It is indeed a noble work in which this young lady has enlisted and we want her to feel that she has the hearty co-operation and best wishes of this entire community in her grand and noble calling. Her successor in this city has not yet been chosen but probably will be in the next few days.

POPULAR COUPLE ARE MARRIED

Mr. Jackson Stofer and Miss Mildred Tonkin Were United in Marriage Last Wednesday

The marriage of Miss Mildred Tonkin, the popular and attractive daughter of Mr. T. J. Tonkin, the local manager of the Central Kentucky Natural Gas Company, to Mr. Jackson D. Stofer, a prominent and influential young farmer, of this city, was solemnized at the home of the bride's parents last Wednesday afternoon at 4 o'clock. The ceremony was performed by the Rev. W. R. Dye, of the Episcopal church and was witnessed only by members of the immediate families and a few intimate friends. Immediately after the ceremony the happy young couple left for a brief bridal trip and upon their return will reside with the bride's parents for a few months while the groom is erecting a modern residence on his farm near this city. The bride is one of this city's most popular and charming young ladies and during her residence in Mt. Sterling has made herself beloved by all with whom she has come in contact. The groom is a son of Mrs. Belle Stofer, belongs to one of Montgomery's oldest families and is one of our foremost young farmers with countless friends. The announcement of the above wedding is of much interest throughout this entire section where both of the contracting parties are widely known and extremely popular in social circles. It affords The Advocate much pleasure in joining many friends in extending heartiest congratulations and best wishes for a long, happy and prosperous married life.

AUCTION SALE

Main Street Cottage
Saturday, April 13th, 1918

As agent for Miss Florence O'Connell, I will sell at public auction on the above date, at the hour of 2:30 o'clock, the frame cottage (known as the O'Connell home) and located at the corner of Main and Sycamore streets in this city. The cottage is one of the best located in the city, has several nice rooms, porch, gas, etc. Is in an excellent neighborhood and fronts on a brick street with asphalt street on the side. There is no nicer home in the city and the place will make an ideal home or a good rental proposition. If you want a bargain here is the chance.

Look the property over or let me talk to you about it.

TO OUR SOLDIER BOYS

Sometimes we wonder, we who are left at home, whether or not our boys realize the void that their departure has left in our community, and more than that, the aching voids in the homes? And then we go on to wonder if we, ourselves, appreciate, not what we have lost, but of what you have so bravely surrendered for our sakes?

And from these thoughts the mind projects itself into the future and we in thought follow you as you go to meet the ominous force that is menacing humanity—that force that would make of you and us mere chattels and pawns on its chess board. We see that the force arrogant in its strength, insolent in its might and defiant of right and justice. We see it riding down opposition with a ruthless stride and brushing aside human rights as it would straws that impeded its progress. And we wonder how, when the great test comes, you, our joy and pride, will meet it.

But the thought does not progress as far as a doubt, for following fast upon it come thoughts of you as we know you heart to heart. We know you to be born without fear, standing unafraid before God and man; men of clean lives and clear consciences, whose deep-seated consciousness of the justness and righteousness of their cause will nerve their arms to the fiber of steel. We know you for men who would prefer death to dishonor, and in whom the yellow is notably absent. And our hearts are at rest. We can proceed with the less weighty duties that devolve upon us, secure in the knowledge that the honor of our homes and country is safe in your hands.

But we cannot but wonder, boys, if you fully sense the great, the noble thing that you are doing? Do you realize that you are making history—and history such as has never before been written? That is the task you have set yourselves. You have gone to meet a crisis in world history before which all previous crisis pale to meager proportions. You are actors in the greatest drama of the human race, and on your actions hangs the destiny of a world. We would not seek to awe you by citing the tremendousness of the task before you, but rather to set before you the golden reward that shall call forth in you all of manhood that has come down to you from a line of ancestors who have never known either defeat or dishonor.

These are not mere sentimental musings, dear boys, but they are the truths that impress themselves upon all our minds as we view the mighty problems that the world must solve, and in the solving of which you will represent your people, your homes, your country and your God.

And when your task is completed and you return to us in the triumph of a righteous victory, we trust to have sufficient appreciation to give you that welcome that you will so richly merit. We hope to be able to show to you that we are not ungrateful for your service and your sacrifice.

And at this point we pause to wonder what will be our feelings if we shall fail in the tasks that confront us, and without the faithful performance of which your work will be doubly difficult. And the desire is born that a united prayer shall go up from YOUR hearts that we be given grace to perform our part of the great work.

LABOR FOR LABOR'S SAKE

The war is teaching the American people anew the dignity of labor. We as a people had almost forgotten that there was in labor for labor's sake a dignity not to be found in inherited greatness or inherited millions. We had come to view labor too much from the viewpoint of the old Biblical myth of the curse pronounced on the first man, that in the sweat of his face should he eat bread. In short, we had come to regard labor as a necessary evil, instead of the unalloyed blessing that it really is. All this war conditions have changed. People whose hands have heretofore been guiltless of the crime of toil, now take a pardonable pride in the fruits of their labor, and many whose incomes range in six and seven figures are in the thick of the industrial fray, and there as genuine industrial units. This is as it should be. We are getting back to the point where we can regard the true object of life as achievement, rather than the sensual enjoyment of the fruits of other's achievement. We are told that the great Ruler of the universe can and does bring good out of evil. Certain it is that many items of good humanity are being evolved from this the most devastating war that civilization has ever suffered.

STOPS Nervousness

"I'm so nervous." How many women say that? But you don't need to be, and you'd better get over that case of nerves before it is too late.

Nervousness is very often simply indigestion. Because food is not properly digested, liver, kidneys and other organs are not properly nourished. They get weak and fail to carry off the poisons of the body, and gradually the nerves, because they have to be nourished the same as the rest of the body, become weakened and diseased.

To get your health back, begin taking Vin Hepatica, the great nature and nerve remedy and universal system purifier. Then the body will regain strength. "I was so nervous I could hardly bear anyone to talk," is the way Miss Hazel Lancaster, of Ft. Oglethorpe, Ga., describes her case. And, of course, she was greatly troubled with indigestion. Vin Hepatica completely restored her to health, and she never wears of telling her friends what it did for her. We can tell you of other cases, no less wonderful. We urge you to try it. We have recommended it to others and it hasn't failed to give relief yet.

"WE HAVE GIVEN OURSELVES. WHAT WILL YOU GIVE?" IS THE SOLDIER'S QUESTION

This question, carried on a banner by Maryland troops parading some months ago in the interest of the Liberty Loan, comes home to every soul when once more the nation is preparing to call upon the country to over-subscribe another Liberty Loan. And yet subscribers to the Liberty Loan Bonds simply make an investment in gilt-edge security, they give nothing, and can give nothing, except it be wholehearted, tireless support to Liberty Loan work, which should be given with the enthusiasm of the soldier when he goes over the top, risking his life for the salvation of those of us who are left behind.

Millions of American boys and men must give up the comforts of home, the pleasures and anticipations of life, business and loved ones, and suffer in the trenches, on the sea, and in the air, and offer their lives a sacrifice on the altar of the nation's life. They have been called, through the voice of the country, by God Himself to save this country from that fearful barbarism which has made wreck and ruin of millions in Belgium and France and Italy and Serbia, and other lands, and which has caused the battlefields of Europe to run red with blood and the rivers and streams to be choked with human bodies. Our loved ones have been called to save civilization; to save Christianity, and to save the women and babies of this land, as well as to save the life of our country.

As these men have heard the call of God through the voice of the nation, the question comes to every one who cannot go to the battle front, What am I doing to help to bear my share of the burden and stand behind these men and the nation, to ease the sufferings of the soldiers and the sailors, and to equip them to the utmost extent of science and money to make effective their work upon the battlefields?

What am I doing to equip them with guns, and explosives, and to feed and clothe them, to build ships to carry the foodstuffs and the munitions to them, to produce foodstuffs, to conserve foodstuffs for them?

These men are offering their lives to save me and all that I hold dear on earth. Shall I be a coward, mentally, physically or financially. Shall I be a slacker and stand back and let these men suffer and die, hoping

that I may live in peace and comfort?

Shall I be so lost to all that is true and noble in life as to be spurned by my own conscience and by my own fellowmen if they could see my failure to measure up to the call of duty? Or shall I be man or a woman whom God has really breathed the breath of the larger and the diviner life?

These are some of the questions which every man and woman must before God and to his own conscience ask themselves.

The men who have gone out from that household and this household, in every part of the land, went out to save from destruction the people at home just as much as if they had rushed into a burning house risked their lives to save the women and children, or seeking some brute attacking women or children had rushed to their defense, counting not the cost.

Shall any man or woman who has the spark of life, who has any thought of nobleness, of honor, of happiness here or of life beyond the grave, prove a slacker in this the supremest hour since upon the Cross of Calvary the Son of God died to save mankind?

Judas, who betrayed his Lord, finds many imitators in this hour which tests the very soul of men and women. They may not, perchance, for thirty pieces of silver have the same opportunity to betray their Lord and Master, but in their hearts is the same spirit of covetousness which would cause them to betray their country and to betray these men who, following the example of Christ Himself, have offered their lives as a sacrifice to save others.

No man has a right to accumulate wealth during this awful world tragedy. It is the duty of every man to work to the utmost limit of his ability in order to earn as much as possible and then invest it in Liberty Bonds and in contributions to the Red Cross, the Y. M. C. A., and kindred activities. He who is a slacker in this hour of fearful suffering and sorrow has no right to look with an honest eye in the face of any fellow-being. This is the testing time of all the world of all human history. It is the time when all that is good and true must come to the front, and all that is bad and vile should go to the scrapheap.

As the Government calls for the purchase of Liberty Bonds that it may fight this battle of your salvation and mine and the nation's from eternal damnation under Germany's

Public opinion has made **Certain-teed** a product of international prominence and use. That great force has built up the **Certain-teed** business from nothing, 14 years ago, to the world's largest roll roofing industry now.

Certain-teed

Roofing and Shingles

In every community under the sun, **Certain-teed** Roofing is giving longer and better roofing service, at a lower cost, than other kinds of roofing. **Certain-teed** costs less to buy, less to lay and less to maintain than any other type of roof. It is weatherproof, water proof, spark proof and fire-retarding. It cannot rust or corrode. It cannot melt under the hottest sun. It is not affected by gases, acids, fumes, smoke, etc.

Certain-teed is established everywhere as the most advantageous and economical roof, for factories, round houses, elevators, garages, warehouses, hotels, farm buildings, stores, out-buildings, etc. In shingles, red or green, it is very popular for residences. **Certain-teed** Roofing is guaranteed 5, 10 or 15 years according to thickness. It is sold by good dealers, everywhere.

power, it has a right to call for concentration of time and money to its work as great as the consecration of the soldier to his task and his sacrifice.

It is impossible to comprehend how any man or woman can think of this matter in any other light, or to understand the spirit which would cause any one to falter or to be a slacker or a shirker in failing to heed the call of the Government for subscription to Liberty Bonds.

Men who cannot go to the war should rejoice in the blessed privilege of feeling that they have a share in aiding those who do go, and realize that every dollar that is invested in Liberty Bonds or Thrift Stamps is a dollar towards the winning of the war.

It behooves all of us, however little or however much we may be able to invest, to be ready when the Government calls for subscriptions to the next Liberty Loan to go to the utmost limit of our ability; not merely to the utmost extent of

easy payment, but to the utmost to which we can find a way, through thrift and saving and economy and credit and cash, to invest in Liberty Bonds.

The call is to be made one year from the date of our entrance into the war. In advance every one in the country who can possibly subscribe for a single bond up to those who can subscribe for millions or tens of millions of dollars, should be getting ready so that on the opening day, in celebration of the first anniversary of our entrance into this holy war, there should be such a tremendous subscription to these bonds as was never seen anywhere in the world.

It should not be necessary for this subscription campaign to extend over weeks of solicitation and active campaigning. On the contrary, in advance men should have made their plans and be ready to make their subscription to the utmost extent of their ability on the opening day, that enthusiastically and joyously they might thus stand behind the Government in this great work to save our country from ruin.

The soldiers who carried the banner, "We have given ourselves. What will you give?" call from the battlefield and the camp, and their voice should sink deep into every soul.

What have you done to make possible our success in the fight which we are making for your life?

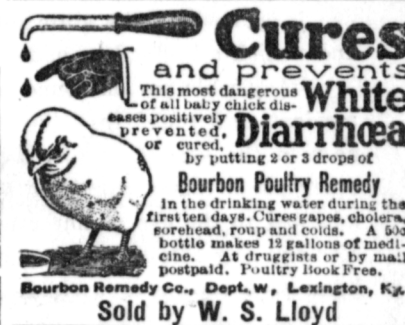

In churches, in schools and everywhere else, the work should begin immediately, and every man and woman should be planning now, with a view to trying to be the first to make a subscription on the opening day, the anniversary day of this, the greatest war of all ages, and the war which means the most for civilization of all the wars since man was first placed on earth.—"Manufacturers Record."

—W. S. S.—

The measure of greatness of a people is in the unanimity with which they rally to the support of their principles and their ideals. If there were ever any doubt that the American people are one in heart and soul, that doubt has been forever dispelled, for, when Americans can be induced to lay aside that idol, so dear to the hearts of all—politics—that world may be assured that they are dominated and controlled by that greatest of all passions, love of home and native land.

It is only that politician of the "peanut" variety that is at all active these days. The statesman has forgotten that politics exist. It is this unanimity of sentiment

and laying aside of all minor differences that is causing grave concern in the councils of the Kaiser. And this concern is not lessened when he observes that a like spirit is lacking in his own dominions.

WORK OR WORKHOUSE

The legislature of Kentucky has finally adopted a law, which, the Advocate, in a modest way, has advocated for years and never in the history of the country was such a law needed as now. Our farmers are having great difficulty in getting labor sufficient to put out a bumper crop, such as the Government is demanding and as our needs now require. Men by the dozens are loafing about the streets of our city and our police ought to get busy and see that they immediately engage in some honest employment, or be put to work on the streets. In Lexington the police authorities are doing effective work and the same thing can be done here. The law is as follows:

"Every able-bodied male resident of this State between the ages of 16 and 60 years must engage in some lawful, useful and recognized business, profession, occupation or employment whereby he may earn sufficient to support himself and those dependent on him.

"From the present date until six months after the termination of the war between the United States and Germany all except bona fide students during school term, who shall refuse to steadily engage in labor at least thirty-six hours a week, shall be guilty of a misdemeanor and shall be fined not less than \$20 nor more than \$100 for each offense, and as part of the punishment must work for a period not exceeding sixty days on the public roads or streets, or some other public work of the county in which the accused is convicted.

"One-half of the fair value of such labor shall be paid by the county or city toward the support of all persons legally dependent upon him but if there are no dependents, no payment shall be made for this work.

"Prosecution hereunder shall be conducted as any other criminal prosecutions and in no case shall the possession by the accused of money, property or income sufficient to support himself and dependents be a defense to any prosecution under this act. In no case shall the claim by the accused of inability to obtain work be a defense to the prosecution under this act.

"All county judges, justices of the peace, mayors and police judges within the state are hereby given jurisdiction to try and punish all offenders under this act.

"Any male person found in the state shall be deemed a resident and proof that the accused habitually loiters in idleness in the streets, roads, depots, poolrooms, hotels, stores or other public places, or that he is habitually intoxicated or is addicted to the use of narcotic drugs, or is a professional gambler or being able-bodied is supported in whole or in part by the labor of a woman or a child shall be evidence of vagrancy.

"All acts or parts of acts in conflict with this act are hereby repealed."

Every city which goes "over the top" on the Third Liberty Loan will be given a service flag by our Government. We already have the pole in our court house yard, so let's all pull together and secure the flag of honor. Let no one forget that it is far better that we loan Uncle Sam our money NOW, at a splendid rate of interest, in order to insure a victory, than to fail, for the want of funds and let the Hun take it away from us LATER. The proposition is simple and we might just as well look the facts squarely in the face.

MEETING AT SPENCER

There will be a meeting in the interest of the sale of Liberty Bonds at the Upper Spencer School House Friday night, April 12th, at 8 o'clock. The public is urged to attend this meeting and enjoy the splendid speeches which will be delivered. Major D. J. Buchett, Rev. M. V. P. Yeaman and John A. Judy will be the speakers of the evening.

ANOTHER GOOD WORK

A new new move by the American Red Cross to co-operate with soldiers and the "folks at home" has been made public from Camp Zachary Taylor, Kentucky, where drafted men from this community are now in training. A. J. Strawson, of the Home Service Bureau of the Civilian Relief Department, has opened an office at Camp Zachary Taylor, and his task is to ascertain any cases of distress of families of soldiers, and see that the families are looked after by the local Red Cross societies, in order that the families may be comfortable and the soldiers may be relieved of the anxiety and worry about the "folks at home."

Among the work he will endeavor to undertake is investigation of delays in allotments and allowances, the matter of payments of installments and rents, a fixed amount in the purchase of a home, or in general, whenever any soldier is "up against it," Mr. Strawson will learn of the condition from the soldier and will immediately get in touch with the local Red Cross chapters to administer the relief.

That this work is very important is shown by examples of cases which have come up. In one case, a soldier's allowance was sent to Louisville, Ill., instead of Louisville, Ky. The Red Cross representative found the soldier worrying and the family in want. He notified the Louisville chapter of the Red Cross for relief, and referred the matter of correcting the address to the man's company commander.

In another incident, a soldier last June married a woman with two children, and being unfamiliar with that provision of the law, did not ask an allowance for the stepchildren. These matters all will be taken up, and every complaint will receive consideration. Where the Red Cross finds an instance of a family temporarily in distress through illness or other mishap, it will make a loan, to tide the family over its troubles.

Mr. Strawson is executive secretary of the Indiana Society for the Prevention of Tuberculosis, and has leave of absence during the duration of the war.

While it is the policy of the government, through allowances and allotments, to see that the dependents of soldiers are properly cared for, yet it has happened in many cases through an error in giving addresses, making allotments, or misunderstanding to whom the allotments could be made, some of the dependents of soldiers have suffered.

"A general order of the War Department issued about the middle of February, provides that one Red Cross representative be located in each camp," said Mr. Strawson. "These representatives are at the services of the men at all times, and may be consulted direct or through officers. No matter where the man lives, we will immediately get in touch with the local chapter of the Red Cross, and see that the proper relief is given." Mr. Strawson said that there had already been some activity along this line at Camp Taylor; slightly over 500 cases having been handled. These were mostly requests received at camp headquarters for discharge or men on account of dependent relatives. The work will be enlarged, however, so that the Red Cross organization can get in touch with all cases which need attention.

When the facts in the case are reported to Mr. Strawson, they are turned over to the Red Cross chapter in the community in which the man belongs, which takes the case in hand and sees that the proper relief is given so that the soldier will not have to worry about the "folks at home," but can rest assured that they will be taken care of comfortably.

The work of the American Red Cross along this line was strikingly shown in France. The morale of a couple of divisions of General Pétain's army had been affected by

reports from the home folks of crop failures, or other disturbing incidents. The Red Cross took the matter up. It sent men to the relief of these dependents, with money, food and clothing. The action so promptly taken, won the admiration and respect to the sturdy, "poilus," who immediately returned to their work with redoubled energy, and displayed a temper for the fight that was even stronger than had been the case before the troubles arose.

HONOR FLAG WILL REWARD BUYERS

Every Community in the United States Is Requested to Fly Banner in Third Drive

WOMEN MAKE SILK ONES AS GIFTS TO THE CITIES

Honor Rolls Will Be Displayed at State Capitals and Grand Roll at Washington

The Liberty Loan Honor Flag is to be one of the big features of the Third Liberty Loan drive. It is the creation of James H. Burton of New York City and has the hearty endorsement of Secretary of the Treasury McAdoo who has expressed the hope that every town in the United States will be flying one of the flags before the campaign for the third drive is very far along.

The flag which will be awarded by the Treasury department to each community as its quota is attained is a flag 36x54 inches, a white field surrounded by a red border and with three blue stripes running perpendicularly through the middle.

In many of the cities patriotic women are going a step further than the Treasury Department and are working on the manufacture of a silk Honor Flag to be ready for flying when they have earned the right to display it. In Cleveland the girls of the Junior League are sewing on a huge flag, following the comparative dimensions of the official flag which the Treasury Department awards, and they mean to donate it to the central committee before Cleveland will have reached its quota.

Women's Clubs Make Them.
In some of the other cities and towns of the Fourth Federal Reserve district church societies and women's clubs are planning to make a flag larger than the official one. But great care is being taken by these volunteer flag makers not to get away from the proportionate measurements of the official flag.

The raising of the flag in each community should be a gala event and preparations are being generally made for patriotic addresses, entertainments, parades and other forms of festivities at the time when the banners shall be officially flown.

The raising of a sample Honor Flag over the Treasury building in Washington recently was a picturesque sight. For the first time in the history of the Treasury Department every one of its employees stopped work for fifteen minutes to attend a public event.

Five thousand persons broke into wild cheering in the thronged streets in front of the building as Lewis B. Franklin, director of the War Loan organization, pulled the flag to the top of the pole from which it flies.

Mrs. McAdoo Made First.
The making of the first flag in Washington was superintended by Mrs. William G. McAdoo, wife of the Secretary of the Treasury.

When the campaign gets under way there will be an honor flag in each state, at the capital, and a national honor flag in Washington. With the state flag there will be displayed a state honor roll on which will be inscribed the name of every community in the state as fast as the communities subscribe their quota and win the right to fly their flag.

In Washington the names of the states will go on the National Honor Roll as fast as the states attain their quotas.

The idea of the Honor Flag and Honor Roll system is to inspire that friendly rivalry between communities and units of population which will result in a maximum number of subscriptions to the loan and add the keen edge of competition to the selling bee.

Window Cards Are Important.
Window cards bearing a replica of the honor flag and a blank for the name of the purchaser will be given to each subscriber for display in the window of his home. The window cards measure 7x9 inches. They serve not only as a testimonial to the loyalty of the householder who has one in his window but they are of great value from an advertising standpoint. If John Jones has one in his window to greet the gaze of Bill Smith, who hasn't bought a bond, every time Bill Smith goes by Jones' home, it will not be long before it penetrates to Smith's slower comprehension that he has a duty to perform. And eventually Bill Smith's window is going to have to have a flag, too.

THE SICK

The condition of Mrs. James H. Wood shows slight improvement.

Florence, daughter of Mr. and Mrs. N. A. Wilkerson, who has been quite ill for the past few days is able to be up.

Mrs. N. A. Wilkerson has been suffering with appendicitis for the past week but is now somewhat improved.

Mr. R. D. Gaitskill remains quite sick at his home on the Winchester pike and his condition is considered serious.

Mrs. Jno. F. Richardson, who has been sick the past two weeks, at the home of her son, A. C. Richardson, on Richmond avenue, is reported some better.

Mr. R. E. Punch left last week for Cincinnati, where he was joined by Mrs. Punch and together they went to French Lick Springs for a brief stay. Mrs. Punch shows little improvement.

Miss Margaret Turley, daughter of Mr. and Mrs. Albert Turley, who has been quite ill in a Lexington hospital following an operation for appendicitis, has sufficiently recovered to be able to be brought home.

The two attractive little children of Dr. and Mrs. C. B. Duerson, Nell Whitfield and Charles B., Jr., who are quite ill with pneumonia, show slight improvement.

INTERESTING LETTER FROM ACROSS THE ATLANTIC

The following letter from Henry and Virgil Sullivan, sons of Mr. and Mrs. J. P. Sullivan, of this city, who are in the United States Navy, and are now in foreign waters, will be of much interest to many friends here. The letter, which is addressed to Mrs. Sullivan, follows:

U. S. S. Wyoming,
March 17, 1918.

"On Foreign Service"

Dearest Mother and all:

As it is Sunday morning I will try and write you a few lines. It is St. Patrick's Day and all the Irish have gone to church, but I did not think I should like to go but write to you instead. Mother, I don't know whether I've told you or not, but we are in "Scottish" waters and have had some liberty in Scotland. This sure is a pretty country and as I am not much good on writing anything I will try to get all the cards that I can to show you some day. The people sure are fine people and want to do anything they can for us, although the food proposition is much worse here than it is over there. We are in port now and everything is pretty easy but we can never tell when we get under way and when we are under way we have a pretty tough time. We do not get but about four hours sleep a day and everything is so dirty and a good many of the boys feel pretty sick for we hit pretty rough sea some times. This certainly is a fine day for it is so warm and sunshiny and everything looks like good old summer time and it reminds me of the pretty days at home when we used to play ball or cut weeds in the yard.

A good many fellows have gone to church, some are on the main deck enjoying the warmest day of this year and some are writing, playing cards and reading papers, yet there are a few that are thinking of the good old times we will have in the States when this old war is over and we put up our 500 feet homeward bound pennant. We are all glad that we are in this thing and glad that we are serving the country that protects us, but there is not one who will not be glad when we can return to the States with the goods. And there will be no wheatless days when we bring home the bacon which we intend to do and the American Naval Forces intend to play the leading part in bringing home the bacon.

Your loving sons,
Henry and Virgil Sullivan.

SEED CORN

NEAL'S PAYMASTER

Germination Guaranteed
95 per cent or Better

Neal's Paymaster is the answer to the Government's request to grow more corn. It is sure-cropping, heavy-producing, early-maturing. This year's crop depends upon the seed you plant. Don't take chances with untested or low testing, unknown varieties. Be advised by farmers who say that they would have averaged twelve bushels more per acre had they planted Neal's Paymaster. On a forty acre field that means \$1,000 more profit for you.

HERE IS NEAL'S PAYMASTER'S 1917 RECORD: Highest 1917 record for Maury, my home county—122½ bushels. Made by Mr. Will Calvert.

On a number of other farms, the average was upwards of 100 bushels.

Mr. Hill McKibbin, on a large field, averaged 90 bushels.

The Seed Corn I am offering you is all from the Calvert and McKibbin farms.

SOME MORE OF MY CUSTOMERS:

Middle Tennessee Experiment Station, after test showing 100 per cent germination, bought 30 bushels of Neal's Paymaster.

Hundreds of farmers, besides those in Kentucky, in the twenty-five great corn growing states.

Neal's Paymaster is the standard two ear corn. White grain, small red cob, medium stalk, matures in 100 to 110 days. Uniformly makes large yield.

I have only about 1,000 bushels of this incomparable, tested Seed Corn left that I can sell to Kentucky Farmers.

THE NEW LOAD LIMIT LAW

(By Rodman Wiley Commissioner)

For years the people have been complaining about the destructive agency of automobiles on Public Highways yet very little thought was given to the fact that heavy loads on narrow steel tired vehicles do more damage than motor vehicles.

Practically every state in the Union that has any roads has laws regulating the weight that can be hauled on certain width of tires. Engineers can design and build

roads to withstand any loads but the cost would be enormous and it is considered more economical to build roads to carry reasonable loads. Inasmuch as the roads are the peoples property they should not be disposed to destroy their own property. The 1918 session of the Legislature has passed a law which limits the load that can be hauled on any kind of vehicle. It is practically the same law that is in effect in all states that have laws on the subject. No one is required to purchase a new wagon but simply

to limit the loads hauled on the wagons they now possess.

On wagons the following amounts can be hauled depending on the width of tire. The amount includes the load and also the weight of the vehicle:

1½ inch tires	3,000 lbs.
1¾ inch tires	3,500 lbs.
2 inch tires	4,000 lbs.
2¼ inch tires	4,400 lbs.
2½ inch tires	4,800 lbs.
2¾ inch tires	5,200 lbs.
3 inch tires	5,600 lbs.
3¼ inch tires	6,000 lbs.
3½ inch tires	6,400 lbs.
3¾ inch tires	6,800 lbs.
4 inch tires	7,200 lbs.

Above four inches add 400 pounds for each quarter of an inch in width of tire.

It is easily seen that more pressure is allowed than is produced by a 12 ton road roller in building the road.

The bill also limits to 800 lbs. per inch width of tire the amount that can be hauled on motor trucks equipped with rubber tires. As an example, if a motor truck is equipped with tires five inches wide, 16,000 pounds could be hauled including the weight of the truck. More is allowed on rubber tires than on steel tires because rubber tires being more or less soft are not so destructive provided the vehicle is not driven too fast. The law also specifies that trucks cannot be operated at a greater speed than 15 miles per hour and when the weight is in excess of the six tons the speed must be reduced to eight miles per hour with iron tires and 12 miles per hour with rubber tires.

The speed of automobiles shall not exceed 25 miles per hour.

Persons violating any of the provisions of the Act are subject to a

fine of not less than \$15.00 nor more than \$100.00 and it is the duty of the Courts and all Peace Officers to enforce the law and when the officials, when properly informed, fail to enforce the law they are subject to a fine of not less than \$50.00 nor more than \$100.

All fines go to the credit of the road fund in the county or the street fund in the city or village depending upon where the offense is committed.

SOAP RATIONING IN NETHERLANDS

By agreement between the government and the soap manufacturers, all sale of soap from the factories has been temporarily suspended. Meanwhile arrangements are being made to standardize the national production of soap in order to husband the supplies. There will probably be henceforth only three "standard" soaps available, a soft soap, a toilet soap and a high-grade soap for medical uses only. The new products will be sold at fixed prices, and dealers will "ration" customers to prevent hoarding.

This paper wishes it understood that it welcomes spring poetry, and can not secure too much of it. We intend to start in time to lay in our winter fuel.

THE WAR, THE FARM AND THE FARMER

By Herbert Quick

The farmer everywhere loves peace. The American farmer especially loves peace. Since the dawn of history, the farmer has been the man who suffered most from war. All that he possesses lies out of doors in plain sight and is spoil of war—his house, his grain, his livestock. The flames that light the skies in the rear of every invading army are consuming the things that yesterday represented his life work, and the life labors of past generations of farmers.

Everywhere the farmer is a warrior when war is the only thing which will make and keep him free. He cannot rally to the colors as quickly as can the dwellers in the cities, because it takes longer to send to the farms the call to arms. It takes longer to call the farmers from the fields than the city dwellers from the shops. Many do not hear the first blast of the trumpet. Others do not at first understand its meaning because they have not had the time to talk the matter over with their acquaintances. Instead of reading half a dozen extras a day, the farmer may read weekly papers only. He must have more time in a sudden emergency to make up his mind.

It is impossible to set the farmers of the United States on fire by means of any sudden spark of rumor. But when they do ignite, they burn with a slow, hot fire which nothing can put out. They are sometimes the last to heat up; but they stay hot. In a long fight they are always found sturdily carrying the battle across No-Man's Land in the last grim struggle. The American farmer will give all that he has and all that he is to win this great war against war.

This war was at first hard to understand. No armed foe had invaded the United States. The night skies were not reddened by burning ricks and farm houses. No raiding parties robbed us of our cattle or horses. No sabers rattled insulted our women. It seemed to many of us that we were not at war—the thing was so far off. We did not realize what a giant war had become—a monster with a thousand arms that could reach across the seas and take from us three-fourths of everything we grew. But finally we saw that it was so.

If the Imperial German government had made and enforced an order that no American farmer should leave his

own land, haul grain or drive stock to town, it would have done only a little more than it accomplished by its interdiction against the freedom of the sea. What was the order against which we rebelled when we went into this war? Look at the condition of the American farmer in the latter part of 1914 and the first half of 1915 and see.

When the war broke out, through surprise and panic we partially gave up for a while the use of the sea as a highway. And the farmers of America faced ruin. I know an Iowa farmer who sold his 1914 crop of 25,000 bushels of wheat for seventy cents a bushel. Farmers in the south sold their cotton for half the cost of producing it. All this time those portions of the world whose ports were open were ready to pay almost any price for our products. When finally we set our ships in motion once more, prosperity returned to the farms. But it never returned for the farmers of those nations which remained cut off from ocean traffic.

Take the case of Australia. There three crops have remained unsold on the farms. No ships could be spared to make the long voyage to Australia. So in spite of the efforts of the government to save the farmers from ruin, grain has rotted in the open. Millions of tons have been lost for lack of a market.

Such conditions spell irretrievable disaster. Such conditions would have prevailed in this country from the outbreak of the war until now if our government had not first resisted with every diplomatic weapon, and finally drawn the sword.

Why did we draw the sword? To keep up the price of wheat and cotton, and to protect trade only? If someone should order you to remain on your farm, and not to use the public highways, would your resistance be based only on the fear of loss in profits from failure to market your crops? By no means! You would fight to the last gasp! Not to make money, but to be free!

When a man is enslaved, all he loses in money is his wages. But the white man has never been able to accept slavery. He has never yet been successfully enslaved. There rises up in him against servitude a resentment so terrible that death always is preferable.

The Human Factors In Good Service

There are three parties to every telephone conversation—the party calling, the trained operator, and the party who answers. All three share alike the responsibility for quick and accurate telephone service.

The calling party should give the correct number in a distinct voice, speaking directly into the transmitter, and wait at the telephone until the party answers or the operator reports. The called party should answer promptly.

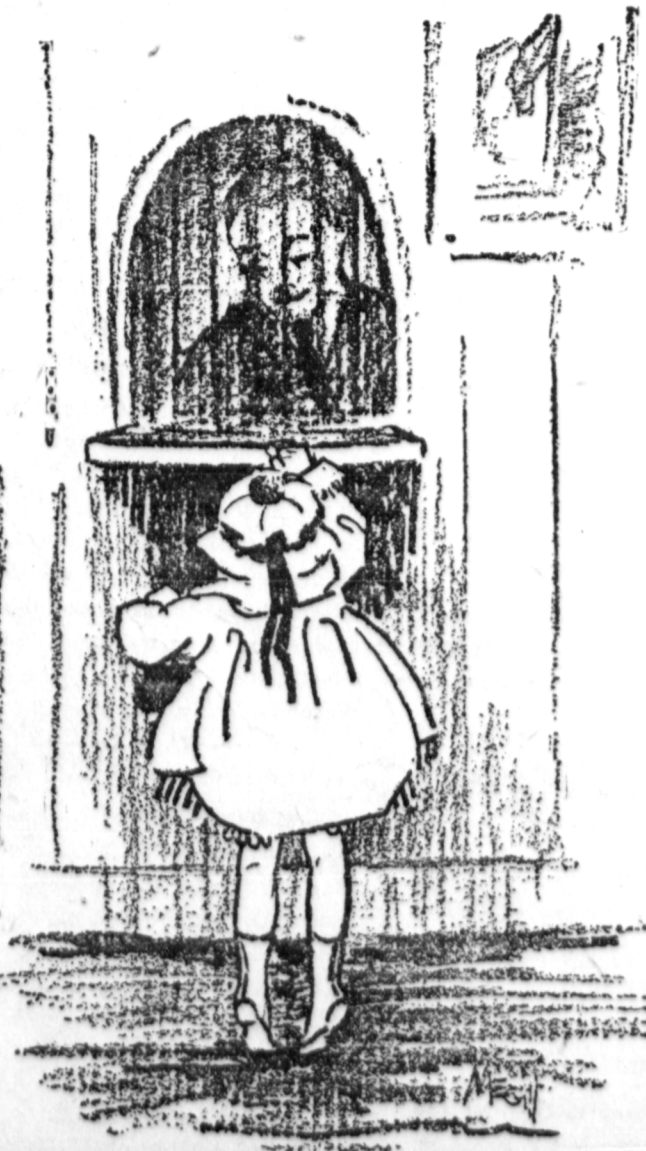

Patience on the part of the telephone user and the telephone operator is also essential to good service.

A Child's Savings May Shorten The War

The war is costing the combined allies more than \$30,000,000 an hour. The daily fate of this huge sum is simple waste. A shortening of the war by days or even hours would mean the redemption of colossal waste.

We must bend every financial effort towards shortening the war. Every small amount invested by a child in Thrift Stamps tends towards this end. The influence of every Thrift Stamp purchased is a little momentum toward earlier victory.

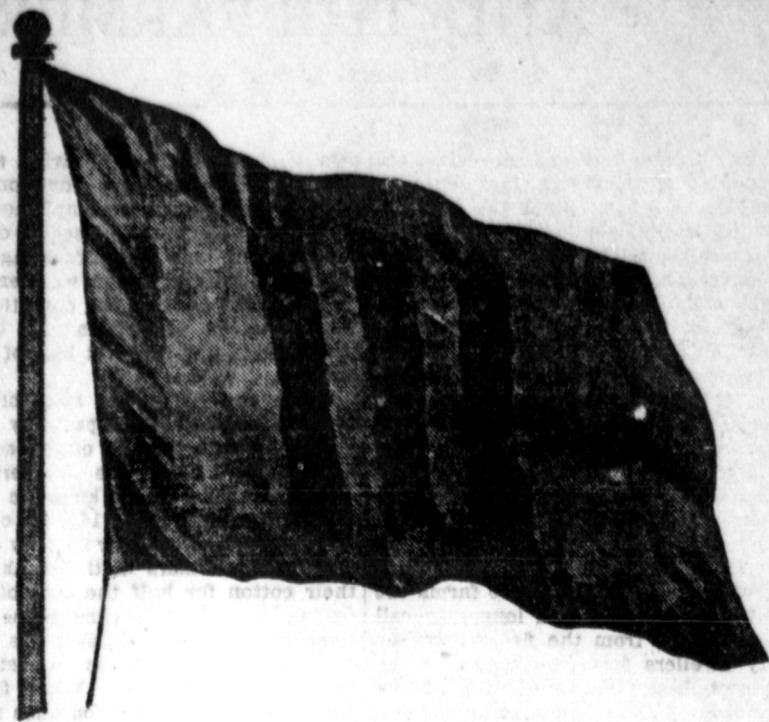

Thus a child's savings may be instrumental in definitely shortening this war and in saving many times its own value in money, to say nothing of conserving human life.

Encourage your child to invest in 4% interest-bearing Thrift Stamps instead of merely hoarding his pennies in a tin bank.

Thrift Stamps cost 25 cents each and may be bought at the postoffice, from your mail carrier and at most stores.

HERE IS HONOR FLAG OF THIRD LIBERTY LOAN; LET'S FLY IT FIRST

Third Liberty Loan Honor Flag.

By the Honor Flag of the Third Liberty Loan we will know the patriots of the nation—the individual patriots, the town, city or county patriots, the state patriots.

The community over which the Honor Flag flies first will be the community which has first loaned to Uncle Sam all he has asked to borrow from that community to carry on the war for the freedom of the world.

The specially designed Honor Flag shown in the picture will be awarded to every community to which a quota has been assigned as soon as that community has attained that quota.

Then each subscriber in that community will get a small poster for home window display containing a reproduction of the Honor Flag and a blank for the name of the subscriber.

In each community to which a quota has been assigned a large honor roll will be posted as conspicuously as possible at the top of which will be a

replica of the Honor Flag and the slogan: "Help Our Town Win the Right to Fly This Flag." Space will be left below for the enrollment of names of all subscribers in the community.

A large Honor Flag will be awarded to each state in the union as that state reaches its quota. On the state flag will be enrolled the names of the communities in that state as the communities reach their quota. The flag will be flown at the capital.

The parent flag of all the Honor Flags will be unfurled at Washington and on it will be recorded the names of the states in the order in which they go "over the top."

The Honor Flag is white with a red border and three blue horizontal stripes through the white rectangle.

The Honor Flag for communities will be 36 inches wide and 54 inches long. They are of the same quality as the flags of the navy.

OLD SQUIRE DIVVIES WITH UNCLE SAM

Squire Bob Hill.

Squire Bob Hill, of Muhlenberg township, Pickaway county, Ohio, has never made any pretensions to excessive patriotism. He has just lived along in a quiet sort of way and attended to his business, leaving his patriotism to take care of itself; much the same as most of us do.

But along about wheat selling time last winter there was a Y. M. C. A. campaign in Squire Bob's district. Squire Bob sold his wheat at \$2.25 a bushel. It was more than he had ever got for wheat in all his life.

"I'm not entitled to such a price," Squire Bob told his friends afterward. "I can make money at a dollar a bushel less. Uncle Sam is entitled to a part of this year's proceeds."

So he gave the Y. M. C. A. a hundred dollars. And he might admit having bought a Liberty Bond or two. And he took a fat hog over to Circleville and auctioned it off on the public square, turning over the proceeds to the Sammies' Christmas fund.

And the funny thing about it all was that his \$100 contribution to the Y. M. C. A. made some of the wealthier and more ambitious citizens of the township dig down for a second \$50 to keep pace with the modest squire of Darbyville.

What a pity there aren't more Bob Hills scattered around Ohio!

MRS. SARAH RICE DIES

At the home of her son, Walter Rice, near the Levee, this county, Mrs. Sarah Rice, widow of the late Charles Rice, died suddenly Friday morning, aged 71 years. Although Mrs. Rice had not been in good health for several months, her death coming at the time it did was entirely unlooked for and was a decided shock to the family and many friends. Mrs. Rice was a noble, Christian lady and was held in the highest esteem by her many acquaintances. She was a devout member of the Christian church and ever willing and anxious to do anything in furthering the cause of her Lord and Master. Funeral services were held in this city Saturday afternoon at 2 o'clock at the home of her son, John Rice, on Howard avenue, with burial in the North Middletown cemetery. She is survived by three sons, John Rice, of this city; Walter Rice, of the county, and Corwin Rice, of Galveston, Texas, all of whom have the sympathy of many friends in the loss of their gentle and loving mother.

INDUSTRIOUS BOARD

It is said by those who have authority to know, that never in the history of the county, has a Board of Supervisors worked so systematically and efficiently as the board now in session. Every list is being gone over, item for item, checked with available data and carefully considered, so that no taxpayer will be unjustly dealt with, as compared with his neighbor. The board convenes promptly at 9 o'clock in the morning and adjourns at 5 in the afternoon. Any person having any complaint should present it to the board while it is in session, as every effort is being made to ferret out mistakes. The board is composed of the following well known citizens: Messrs. A. L. Tipton, Robert Howell, Chas. E. Duff, Ben W. Hall, Jno. F. Richardson and Thomas N. Coons.

KILL USELESS DOGS AND CATS

Next to chickens, dogs are the most inveterate enemies of the home gardener. The Department of Agriculture believes that in the present emergency every dog should either have a good excuse for his existence or else cease to exist. A medium-sized dog consumes as much food as a human being, and the vast majority of them serve no useful purpose. For the support of indigent dogs and cats we are spending millions which we can not afford. Every state should have a law compelling all dogs and cats to be registered and putting a heavy tax upon them. The enforcement of such a law would soon result in the elimination of superfluous dogs and cats.

THIS IS "POTATO WEEK"

"Have another potato," will be the principal invitation every hostess will give her guests during the present week. "Potato Week" began Sunday, and every Kentucky family will be expected to serve the tubers three times a day for seven days.

The object of "Potato Week" is to save wheat. No one eats bread and potatoes at the same time. For this one week, though, every Kentuckian will be expected to do without wheat products altogether if he possibly can. Federal Food Administrator F. M. Sackett, estimates it is possible to save 10,000 barrels of flour.

How's This?

JAMES AGAIN A CANDIDATE

Senator Ollie M. James, Kentucky senator, on Monday announced his candidacy for re-election to the United States Senate, subject to the action of the Democratic primary to be held next August.

While it has been known for a long time that Mr. James would make the race, no formal announcement had been made before the above date. It is not known whether he will have opposition in his own party or not although a number of prominent Democrats have been mentioned in connection with the race. The Republicans are mentioning Judge E. C. O'Rear, Judge McKenzie M. Ross and Judge Chas. Kerr.

OPPORTUNITY IS CALLING

Everybody is demanding more trained Office Help. The United States Government wants thousands of young people for the Civil Service. Uncle Sam says: "Students just starting a course of study may be informed that there is now practically no limit to the number of Stenographers and Typewriters the Government needs."

"The United States Government needs and needs badly, great numbers of Stenographers and Typewriters, both men and women for service in the departments at Washington, D. C., and the situation in federal offices outside of Washington is scarcely less urgent. The supply of qualified persons on the Commissioner's list for this class of work is not equal to the demand. All those who pass the examination are certain for appointment."

Decide now to do your bit by training for a splendid position. We court a thorough investigation. Day and night school.

CONSIDER THE POILU— THEN BUY A BOND

We have just seen a letter from a French soldier in the artillery. He is overjoyed, for he has had a promotion in rank and now he is to get 14 cents a day. He is proud that he is now independent and doesn't have to call upon anybody to help him out.

As for the danger—poof! For two years he went through the thick of things for 5 cents a day, then he was raised to 7 and now to 14.

This offers a bunch of suggestions to every indifferent American, for that French soldier is fighting our battle while fighting his own.

LIEUTENANT SOUSA— MINUS THAT BEARD

Lieut. John Phillip Sousa.

Lieutenant John Phillip Sousa has lost his beard.

That beard had become a national institution. It was known wherever band music was heard. But when he began training the Jackies of the Great Lakes Naval Training School band at the naval training station at Great Lakes, Ill., and took on the title of lieutenant he left off the beard.

The loss of the jaw adornment was not accompanied by any loss, however, of the old Sousa knack of getting the most out of a band that is in it. Lieutenant Sousa has imparted all the old fire to the boys of the naval training station and how faithfully they have absorbed it will be seen in many cities and towns of the Fourth Federal Reserve district during the weeks of the Third Liberty Loan drive. The band is to make a tour of the district.

REPORT DENIED

No cut will be made in the Chesapeake and Ohio railway service affecting Mt. Sterling and other points on the Ashland and Louisville division, it was learned officially last week, when Director General of Railroads McAdoo announced that the rumor current here a few days ago that certain passenger trains would be discontinued was without foundation.

KEEP THE SOLDIER BOYS POSTED

Many people have doubtless asked themselves the question: "Will my boy, granted he is spared through the conflict, return to his home, or will he be content to remain in some other country or some other part of this country?" And this is a question we may all well ask: When this war is over there is going to be a great inducement for our boys to settle down away from their homes and become citizens of other countries. The war will serve as a refiner, separating the gross from the pure gold, and the young man who comes through with honor or untarnished will be eagerly sought to fill places of honor and trust.

Now we are anxious that our boys do not forget the old home or become weaned from home associations. We want them to carry ever with them a vivid picture of the home joys and pleasures as they knew them before Uncle Sam called them to sterner duties. We want their allegiance to hold to the old home with all the old home stands for in their lives.

To this end, are we taking the right course to keep the memory of home ever green with them? You say you are writing regularly, and giving them all the news of interest you know. Yes, but this is probably but a drop in the bucket to what they would learn were they with us.

Every boy should receive his home paper regularly. He should be able each week to tell all that is transpiring back at home, and to have as it were a bird's-eye view of the social and business life of his home community. Home associations should never be permitted to fade from his memory but should be renewed with every issue of his home paper.

In numbers of communities the home paper is being sent to every soldier who has gone from that community, frequently through some public organization. No better action could be taken by a board of trade, commercial club, home defense organization or any other organization than to send each soldier his home paper for the duration of the war. It will show to the boys that not only have the folks at home not forgotten a single one of them, but they are also determined that not a single boy shall forget his home through their neglect to keep memories of that home green in his heart.

Every traveler is familiar with the news stands in all the principal cities of the country where a sign similar to this is displayed: "Name your town, we have the paper." And every traveler knows the thrill of pleasure with which he seized the old home sheet and lost himself in the familiar contents.

Whatever else your boy may be deprived of, be sure he has his home paper. It will pay well on the investment.

THIRD LOAN HAS FLAG OF HONOR

Banners Will Fly in Every
Community in Nation if
McAdoo Gets Wish

WOMEN MAKE LARGE SILK ONES FOR AMERICAN CITIES

Washington Turns Out to Watch
Hoisting of First Sample
at the Capital

The enthusiasm which greeted the flying of a sample of the Third Liberty Loan Honor Flag in Washington a week or more ago was but the foretaste of the zest which will attend a series of similar flag raisings all over the United States when the real Honor Flags are raised by the communities which will have earned the right to fly them by subscribing their quota to the loan.

Patriotic addresses by big men of the communities, playlets by the school children, entertainments by church or amateur dramatic societies, parades by lodges—these are some of the ceremonies planned to attend the raising of the flags in the various units.

The Liberty Loan Honor Flag was conceived by James H. Burton of New York and has the hearty endorsement of Secretary of the Treasury William G. McAdoo. The plan calls for the award of an Honor Flag by the Treasury Department to each community in the nation when that community will have attained its quota of subscriptions to the third loan.

The first flag was made in Washington under the supervision of Mrs. McAdoo.

Flag Raising Is Gala Event.
The raising of the sample flag, in Washington was a gala event. For the first time in the history of the Treasury Department all of the employees of that department left off work for fifteen minutes to attend a national event. They grouped in front of the Treasury building and cheered lustily when the first Honor Flag was pulled to the top of a mast there by Lewis B. Franklin, Director of the War Loan organization. And the cheers of the employees were but a part of the demonstration for thousands of Washingtonians crowded in the street tying up street car traffic while the ceremony was on.

The flag is a white flag with a deep red border and three perpendicular stripes running through the center. The stripes are the same width as the border. The official flags which will be awarded by the Treasury Department measure 36x54 inches.

In many cities patriotic women are working on the making of bigger flags than the official ones.

In Cleveland the young women of the Junior League are making a huge silk banner which they will donate to the central committee to be flown when Cleveland attains its quota. In other cities large silk flags to be similarly donated are being made by the women of clubs and church organizations.

Besides the Honor Flags which will be awarded to the communities there will be a state Honor Flag and a national Honor Flag. On the State Flags which will be flown in the state capitals there will be an Honor Roll on which will be inscribed the names of the communities in that state in the order in which they earn the right to fly the flag. On the National Honor Flag which will be flown in Washington the names of the states will be enrolled as they reach their quotas.

Buyers Get Window Cards.
Window cards will be given to all subscribers to the Third Loan. On the cards, which measure 7x9 inches, there will be a replica of the Honor Flag in colors and a blank space in which to write the name of the subscriber. These will be displayed in the windows of the homes of bond buyers.

Not only will these cards serve as a recognition of the patriotism and loyalty of the householder but they will have a strong advertising power. If a man has one of the window cards proclaiming to all of his neighbors that he has bought his bond the neighbors are going to get busy and do their duty. One card on a street is bound to be followed by others and eventually these cards, meeting the eye of the tardy one everywhere he looks, are going to be the force that will spur him on to the purchase.

HERE IS A WAY TO SUBSCRIBE FOR A

\$500 to \$5,000 Government Bond

—OF THE—

THIRD LIBERTY LOAN

And Pay For It

In Ten Semi-Annual Installments With

Interest at 4 1/4 Per Cent.

There are, no doubt, a great many people who would like to subscribe to the Third Liberty Loan for a larger amount than their present available cash justifies, and who would prefer not to borrow money from a bank for that purpose. The Equitable (THE STRONGEST IN THE WORLD) offers to co-operate with the people in this situation and presents a plan similar in most respects to one that is in general use in England, and which met with general approval in this country when announced here by the Equitable. It is in entire accord with the policy of procuring a wide distribution of Liberty Bonds and encouraging individuals everywhere to pledge their savings to meet the cost of the war.

Under this plan a subscriber pays approximately 10 per cent of his subscription in cash and agrees to pay the same amount every six months until 10 installments have been paid. The Equitable immediately buys from the Government a Liberty Bond and holds it for delivery to the subscriber when it is paid for in full. If the subscriber dies while the contract is in force, the Equitable immediately delivers the bond fully paid to his widow or beneficiary, and IN ADDITION pays to the widow or beneficiary nearly the entire amount of the installments that have been paid in (to be exact the amount so returned will be the full amount paid with interest at the same rate as allowed by the Government, less the amounts applied to pay for the life insurance carried).

The insurance carried adds so little to the total cost that unless the subscriber is over 47 years of age the total amount actually paid in by him during the five-year term will amount to LESS than the face value of the bond. In other words, the accruing interest on the bond will more than pay the insurance premiums.

THE BIGSTAFF SALE

The Bigstaff lot sale recently advertised was held last Wednesday by Mr. R. G. Kern, executor of the will of Mrs. Bigstaff, and was attended by a large crowd, bidding was spirited and the lots, everything considered, brought good prices, in fact much higher prices than many predicted they would. The lots sold as follows: Of the lots facing on Maysville street, Mr. G. B. Senff purchased No. 2, the one adjoining his present residence, and No. 11, which is just back of No. 2, paying for both the sum of \$1135; lot No. 3 was purchased for Judge E. W. Senff for \$1,000; R. L. Vanarsdell purchased No. 4 for \$1,000; lot No. 5 was purchased by Mrs. Marvin Gay for \$1,075. Of those facing on Bigstaff Court, No. 7 was purchased by Mr. B. F. Mark, for \$525; No. 12 by N. H. Trimble for \$335. Of those facing on North Sycamore street, Mrs. H. C. Ragan purchased No. 28 for \$225; Roger Crouch, No. 29 for \$195; Roger Crouch, No. 30 for

\$260; Annise Hunt, No. 31 for \$390; Keller Greene, No. 32 for \$340; R. L. Vanarsdell purchased No. 33 for \$500 and resold to Mrs. James S. Bogie for \$525; W. T. Fitzpatrick, No. 34 for \$400; Dr. J. A. VanSant, No. 35 for \$400; A. S. Johnson, No. 36 for \$410; No. 20 to T. J. Bigstaff for \$180. The residence and adjoining lots 16, 18 and 19 were bid in by Judge R. H. Winn, acting for the Hospital Committee for \$6,440. The sale totaled \$15,015, or several thousand dollars more than the same property could have been purchased for in a lump, several months ago.
